#### Request for information (ref Koraunui Board of Trustees OIA201707)

Dear Mr Hines

Thank you for your email of 29 July 2017 requesting information, under the Official Information Act 1982 (the Act), about religious instruction and religious practices at Koraunui School. I have provided responses to your questions under subheadings.

#### Religious instruction

Our School has not offered any religious instruction in 2017.

#### Religion in school assemblies

Our assemblies include use of karakia as part of our commitment to tikanga Māori. The karakia are non-denominational and do not include explicitly Christian content. No songs of a solely religious nature are sung.

#### Religious clubs and other events

There are no religious clubs or other religious events in our school programme or otherwise held at Koraunui School.

#### Designated religious staff

There are no designated religious staff at our school.

#### **Evolution**

Evolution is not a designated topic in our science programme.

#### Religious publicity and use of buildings

Our School has not advertised religious or anti-religious activities, and our School Hall has not been used by any religious group(s) in the period of your request.

If you disagree with the Board's decisions on your request, you have the right, under section 28 of the Official Information Act 1982, to complain the Office of the Ombudsman. That Office can be contacted by phone on 0800 802 602 or via email to info@ombudsman.parliament.nz.

To:t " 'm>;

Dear

Thank you for your email regarding the board of trustees vacancy.

I can reassure you that the Koraunui BOT has sought advice from NZSTA to ensure the correct process is followed.

The BOT vacancy has arisen due to a board member not attending the required number of meetings.

Our school community were advised of the vacancy and selection process on 31 July on school Facebook page and website, also in the same week by a full page in the school newsletter and publicly in the Hutt News.

While the vacancy itself is not specifically a whanau vacancy, the board have identified this as a gap on the board that needs to be filled to ensure representation for our Maori families.

This vacancy, and the Boards proposal on how to fill it has also been discussed at a recent whanau hui.

The selection of a new Board member will be discussed at the next meeting on 6/9/17.

Kind regards,

Rachel Brinkley

Kia ora Rachel

nga mihi i roto i nga ahuatanga o te wa.

I note in this week's newsletter the notice advising that "The Board of Trustees are looking to replace our whanau representative on the board's they have identified this gap.

The Board has suggested selecting Chris Miller as he had the next highest number of votes from our whanau candidates from the Board of Trustees elections last year.

Can you please confirm:

- has a whanau representative resigned from their position on the Board?
- when were parents notified of this resignation (I seem to have missed that notice)?

I attach the following link which outlines the requirements of the Board in terms of notifications should it intend to select (rather than go to a by-election) a replacement.

http://www.trustee-election.co.nz/board-resources/a-guide-to-board-structure

I look forward to receiving further notice as a parent, confirming the selection process and the relevant tilmeframes associated with running a selection process.

Finally to be clear, this is not about the whanau rep the Board is intending to select as a replacement - this is about ensuring the BoARD is following the structured processes as determined in the education Act.

# **Achievement challenges**

Achievement challenges are shared goals that are identified and developed by a Community of Learning | Kāhui Ako based on the needs of its learners.

The challenges are created by the Community of Learning and endorsed by the Minister of Education as part of the formation of the Community of Learning. An achievement challenge plan is a working document that guides the progress and direction of a Community of Learning.

# Endorsed achievement challenges

Examples of achievement challenges are available for download below. The most recently endorsed achievement challenges are at the top of the list.

# Identifying achievement challenges

Communities of Learning identify achievement challenges that are a priority for their community. Achievement challenges should be common to all or most of the schools within a community, but may be apparent in different ways in different schools, along the learning pathway. Most Communities of Learning identify 3–5 challenges to address.

The following questions may be helpful starters.

- · What is our vision of success for our students?
- What are the common challenges across our Community of Learning?
- · What do we know about possible reasons for these challenges and how do we know?
- What support will be needed and what resources are available to help?

Understanding links and reasons for the challenges will help define your achievement challenges and set out your goals and objectives towards addressing them.

# Schedule One: Scope of Services Project Management Services

## Background

- 1.1 The Ministry of Education's "NZ School Property Strategy 2011-2021" states priority work areas to ensure that schools are safe and in good physical condition. The priorities are:
  - 1.School Property is well managed

The Ministry of Education is seen as a high quality property manager and advisor to government.

2.Schools are fit for purpose

State schools are safe environments that empower students and teachers to succeed.

3. High-performing portfolio of schools

The portfolio of state schools responds to changes in demand and is well utilised and efficiently run.

1.3 Information about the Ministry and what we do can be found at: <a href="http://www.education.govt.nz/">http://www.education.govt.nz/</a>

#### Our requirements

#### **General Project Management Services**

- 2.1 The Ministry requires school boards to manage School-lead contracts for both professional services and construction contracts.
- 2.2 Schools appoint project managers to assist them in implementing projects that are:
  - 1.Part of the 10 Year Property Plan (10YPP) for their school
  - 2.Roll growth projects
  - 3. Special education modifications
  - 4.Other contracts that may eventuate relating to school property as confirmed by the Client.
- 2.3 A project manager should preferably have an appropriate tertiary qualification and could come from these disciplines - architect, engineer, quantity surveyor or licensed building practitioners.
- 2.4 All project managers should have an understanding of:
  - 1. Consenting requirements
  - 2. Ministry of Education's design standards
  - 3. Managing of multi-discipline design and construction teams
  - 4.Cost benefit Analysis
  - 5. Feasibility studies
  - 6. Time, cost, quality planning and quality control
  - 7. Procuring of goods and services
  - 8. Contracting and construction methods
  - 9.Contract administration
  - 10. Risk management
  - 11. Dispute management.

#### Initial Project Plan

- 3.1 The Consultant shall work with the Client's Representative (and sometimes the Ministry) to develop an initial "Project Plan".
- 3.2 This stage of Services will also involve consultation with key stakeholders to ensure that the project scope(s) meet(s) the requirements of the School and Client and that there is buy-in from all parties from the outset to ensure the success of the project(s).
- 3.2 The initial Project Plan will outline and include:
  - 1. High level Project Brief
  - 2. High level Scope of the project(s)
  - 3.Budget and programme for the delivery of all projects in the approved Five Year Agreement (5YA) or other School property project(s).

#### **Project Delivery**

- 4.1 If required the Consultant will deliver specific work packages identified in the initial Project Plan which would generally be in five (5) stages, with the key activities and outcomes from each of these stages. The Project Plan is a living document and shall be updated at each stage of the project.
- 4.2 The following high level table gives an overview and shall be used in conjunction with Ministry's Standard Professional Services Specification for *Project Management*: The following stages may not necessarily be required for low value and/or low risk projects as confirmed with the Client.

## General pricing guidance

- 3.1 In submitting the pricing:
  - Suppliers must use the pricing template provided below.
  - b. Suppliers must clearly detail all costs, fees, expenses and charges associated with the full delivery of the Client's requirements. There must be no hidden costs.
  - c. Where assumptions may influence the price the impact of the assumption on the price must be clearly stated.
  - d. Prices must be stated in \$NZD exclusive of GST.
  - e. The pricing structure must be transparent, with all assumptions clearly stated. There must be no hidden costs.
  - f. Where a Supplier has an alternative method of pricing (i.e. a pricing approach that is different to the pricing schedule shown below) this may be submitted as an alternative pricing model. However, the Supplier must also submit a pricing model that conforms to the template below.

## Pricing schedule response

3.2 Suppliers must complete their Fees for their proposed services as based on the below Project Budget construction value.

Project budget for construction (\$)	Percentage Fee OR Fixed price (\$)
\$0 to \$49,999	Refer to payment schedule
\$50,000 to \$150,000	
\$150,001 to \$300,000	
\$300,0001 to \$500,000	
\$500,001 to \$1,000,000	
Over \$1,000,000	

3.3 Suppliers must complete their hourly rate for any **additional services** to be agreed to be agreed with the Client for their proposed named (key) personnel

Additional Services may also be negotiated as a "Fixed price" tender with Client.

Named Personnel (Title)	Hourly rate (\$)
Simon Ramage	\$145.00

## Payment Schedule

3.4 The method payment for the items listed in the pricing schedule are as follows:

Item	Description	Payment Terms
1	Percentage Fee (%) (based on project(s) budget for construction (\$))	The percentage shall include all expenses relating to required inputs, activities and outputs for the Project(s) and the confirmed services as set out in the Standard Specification for <i>Project Management</i> .  Payment for the services the will be made monthly on the basis of agreed work completed, and on acceptance of a GST invoice.
2	Fixed Price (\$1,350.00) (based on project(s) budget (\$15,000.00))	The fixed price shall include all expenses relating to required inputs, activities and outputs for the Project(s) and the confirmed services as set out in the Standard Specification for <i>Project Management</i> .  Payment for the services the will be made monthly on the basis of agreed work completed, and on acceptance of a GST invoice.
3	Additional Services Hourly Rate (\$)	The hourly rate(s) tendered shall include all expenses relating to required inputs, activities and outputs as agreed with the Client.  Payment for the services the will be made monthly on the basis of agreed work completed, and on acceptance of a GST invoice
4	Additional Services Fixed price	The fixed price for additional services as agreed with the Client shall include all expenses relating to required inputs, activities and outputs as agreed with the Client. Payment for the services the will be made monthly on the basis of agreed work completed, and on acceptance of a GST invoice

#### Pricing assumptions

1 11011	ng assumptions	
	To ensure that the Client can properly understand and evaluate your proposal it needs to understar and validate any assumptions that you may have made. List all of the assumptions that you have made and address the impact that these assumptions may have:	nd

## Report back - Technology Portfolio

Subject (1) Report back about attendance at the Strategic Thinking Roadmap Workshop

(2) Consultation on Digital Curriculum

#### 1 Strategic Thinking Roadmap workshop

#### **Background**

I attended a Strategic Thinking Roadmap Workshop on 20 June 2017 at Aotea College. It was a free workshop for Board members run by the Connected Learning Advisory (Learning Advisory).

The Learning Advisory is contracted by the Ministry of Education to support schools to manage and use digital technologies for learning.

## The Strategic Thinking Roadmap

The <u>Strategic Thinking Roadmap</u> (the Roadmap) provides planning strands, reflective questions, exemplars and templates to support the development of e-learning plans. This is to support integrating technology in each school's efforts to achieve successful teaching and learning.

A graphic summary of the different parts of the Roadmap is available on slide 1 of the  $\underline{\text{presentation}}$  from the workshop.

The Roadmap focuses on three steps for producing a digital technologies / e-learning action plan:

- 1. Form a view of a future state:
- 2. Consider 8 strands for future digital planning:
  - o intentional leadership
  - o genuine learning partnerships
  - o powerful pedagogy
  - o purposeful curriculum
  - expanded teacher capacity
  - o innovative learning environments
  - o robust digital infrastructure
  - cohesive digital services
- 3. Develop an action plan

The components of digital action plans are:

- a vision for using digital technologies;
- an assessment of where the school is at;
- an approach to moving from the current to the future state;
- specific goals and actions and how they will be achieved; and
- a process for monitoring progress and evaluating the impact of the plan.

## Related templates and resources

The Learning Advisory has developed resources for the three core steps in the planning process as follows:

- A <u>planning conversations template</u> and a <u>list of reflective questions</u> which help to identify the current state of digital technologies and e-learning in a school and the enabling factors and barriers to achieving the desired future state;
- A <u>Roadmap Discussion Summary</u> for capturing the details of discussions about the future state;
- A Goals and Actions template drawing on the 8 planning streams; and
- An action plan template.

#### Next steps

The framework provided by the Roadmap is comprehensive and could provide a spring board for the Board to begin work on a digital technologies and e-learning action plan.

Developing such a plan would also provide a stronger basis for understanding the school's technology needs so that this could be incorporated in the Board's financial planning.

However, this would require significant engagement and work by Board members.

I recommend that the Board agree to hold a work shop to work through the roadmap resources and to develop a 'digital learning planning and vision strategy'.

The plan would draw on the Learning Advisory's approach augmented by some simple questions:

- What type of online access will be provided to tamariki at school?
- What hardware and software is required to provide that access?
- What ancillary digital technologies are required in a modern learning environment?
- How do we ensure that relevant online learning is incorporated and taken-up as part of each pupil's learning plan?
- What are our principles for identifying what is appropriate online collaborative and learning between pupils, and between teachers

I suggest that a workshop is held early in the new year when the final form of the Digital Curriculum (see next item) will be clearer.

# 2. draft Digital Technologies for the National Curriculum

Minister Kaye has recently launched <u>draft changes to the digital technologies content in the National Curriculum</u>. Submissions closed on 3 September 2017.

The reorganised technology learning area retains three strands: technological practice, technological knowledge, and nature of technology but five new technological areas:

- Computational thinking for digital technologies
- Designing and developing digital outcomes

- Designing and developing materials outcomes
- Designing and developing processed outcomes
- Design and visual communication.

High level themes signalled in Minister Kaye's press statement and the consultation document ere:

- the proposed changes are about further building digital skills and fluency and 'strengthening' the digital technologies content in the National Curriculum;
- the new content covers two key areas 'computational thinking' and 'designing and developing digital outcomes', and is designed to be flexible as new developments and technologies as they emerge.
- 'computational thinking is about understanding the computer science principles that underlie all digital technologies, and learning how to develop instructions, such as programming, to control these technologies'
- 'designing and developing digital outcomes' is about understanding that digital systems and applications are created for humans by humans, and developing knowledge and skills in using different digital technologies to create digital content across a range of digital media.

#### Comment

The consultation document is detailed and technical, and I have found it difficult to understand what the proposed changes could mean for our kura.

I am aware of some feedback in the media that the new requirements could place additional demands on schools which will not be addressed by the associated boost in funding to raise teacher capability.

At this stage, I suggest we wait to see what guidance or comment is issued by the NZSTA or the Ministry. Monitoring comments from other stakeholders, such as the NZEI, may also be informative.

At a practical level, it could be necessary to clarify if there is an emerging requirement, either implicit or explicit, that every pupil (above a certain age) will have online access at school. It would also be helpful to receive guidance about what level of technical expertise will be required to deliver the new content.
